TB PATHO

① TB inhaled

② Alveoli

③ Macrophage phagocytizes

④ TB resists + proliferates → PRIMARY INFECTION

⑤ cell-mediated response
(type IV hypersensitivity)

⑥ Granuloma + caseous necrosis

⑦ LN involvement

⑧ Ghon complex, fibrosis, calcifications

- ACTIVE TB
- TB killed
- LATENT TB
  - ↓ (↓ immunity)
  - ACTIVE TB
    - ↓
    - cell-mediated reaction + cytokines
    - ↓
    - caseous necrosis, cavities
    - ↓
    - dissemination (Lungs + MILIARY TB)
